

Bill Payment Calendar

A month of boxes: write each bill on the day it leaves the account and tick it once it has gone.

Month: _____

Account the bills come from:

[illegible]

Total due this month: _____ **Total paid:** _____ **Still to pay:** _____

The date boxes are blank, so the same sheet works for any month and any country: write the dates in once and the bills stay where they fall. Tick a bill only when the money has actually left the account.
